

Icehaw Salt Spreaders

2130 Commercial High Output Spreader

Description

Where high output and large particle size is required, the 2130 is the ultimate large material broadcast spreader. When the desire is to spread large particle size material fast, look for the 2130. Equipped with our exclusive High-Output shut-off, the 2130 is designed to spread salt, seed mulch and other high volume granular materials. Solid control linkage, adjustable height handle and "T"-Speed lever provide total operator control and comfort. Add the optional 3-sided deflector kit and the 2130 is the premier spreader for sidewalks.

Features

- 65lb/30kg Hopper capacity - rustproof poly construction

- Height Adjustable Handle
- **Optional** 3-sided deflector - #60184
- **Optional** Rain cover - #77003
- **5-Year Limited Warranty**
- Lifetime tech support

60184 3-Side Deflector Kit

3-sided Deflector Kit for the 2130 spreaders. Used to reduce the spread pattern from left side, right side, front, or all three which makes the material drop within the wheels of the spreader. Ideal for use on sidewalk application of ice melt products.
